# Bibliography of Economic Regulation of Agricultural and Nonagricultural Industries, 1960-79

Winston W. Grant and Dale C. Dahl \*

## INTRODUCTION

This bibliography can aid those interested in researching the theory, economic effects, and other implications of regulation of agriculture and the food system.

References selected for this bibliography include published compilations of law in the legal categories, articles that state "what the law is" in the various categories, analyses and interpretations of regulatory laws, and analyses of the economic effects of regulations.

The category on industries other than agriculture was included so that the methods and theories of nonagricultural regulation and regulatory research might be compared with or applied to regulation in the agriculture and food industries.

The subcategories are generally self-explanatory. A subcategory on antitrust regulation, however, was not included because of the magnitude of the category and because of the extensive coverage of the topic in another recent bibliography by the same authors:

\*Grant, Research Specialist, and Dahl, Professor and Adjunct Professor of Law; Department of Agricultural and Applied Economics, University of Minnesota, St. Paul, Minn., compiled this bibliography for the Economics, Statistics, and Cooperatives Service of the U. S. Department of Agriculture.

Station Bulletin 523. St. Paul: University of Minnesota, Institute of Agriculture and Agricultural Experiment Station, August 1978.

A number of indices and bibliographies, including the bibliographies of important articles and books on regulation, were searched in compiling this bibliography. The general indices searched include:

1. University of Minnesota Libraries, card catalogues (including law).
2. U.S. Department of Agriculture Current Research Information System (CRIS) data base.
3. The Index to Legal Periodicals, published by the H. W. Wilson Company in cooperation with the American Association of Law Libraries, monthly with annual volumes, 1960-April 1979.
4. Monthly Checklist of State Publications, Vol. 51, No. 1, Jan. 1960 through Vol. 70, No. 4, Apr. 1979 compiled by the Exchange and Gift Division, Processing Department, Library of Congress, Washington, D.C.
5. Lists of Departmental Publications from College and University Departments of Agricultural Economics (not all departments have such a list).
6. Monthly Catalog of United States Government Publications, Superintendent of Documents, U.S. Government Printing Office, Washington, D.C.
7. Catalog of the National Agriculture Library. Totowa, N.J.: Rowan and Littlefield for the U.S. Dept. of Agriculture, through Nov. 1977.
8. Indices to the American Journal of Agricultural Economics (published as Journal of Farm Economics until 1968), the American Agricultural Economics Association, 1960 through February 1979.
9. Index of Economic Articles (Journals), American Economic Association, 1960-71.
10. Journal of Economic Literature, American Economic Association, 1972 through March 1979.
11. Dissertation Abstracts, University Microfilms, Ann Arbor, Mich.: Xerox.
12. Masters Thesis Abstracts, University Microfilms, Ann Arbor, Mich.: Xerox.

A comprehensive search of the literature was made in the compilation of this bibliography. This is, however, a select bibliography and we do not claim to have included every relevant piece of literature which may have been published in the area of agricultural and nonagricultural regulation from 1960 through April 1979.
